### SPANISH FORK.

Wave of Prosperity - Exceptionally Fine Crops Harvested-Educational.

Special Correspondence. Spanish Fork, Utah Co., Nov. 20 .-This is the time of year when business is at its flood tide here. The very numerous wagon loads of farm products delivered at the stores and railroad depots, added to the great number of large hay-stacks, herds, large and small-of fat beeves and sheep, gran-aries filled with cereals, pits with pota-toes and pocket books with no dearth of coupons and cash are indicative of prosperous times. Then the bank de posits are nearly twice as large thi year as compared with last year. Their sum in the Spanish Fork is in the neighborhood of \$100,000. Added to the great amount of stuff sent by rail, east and west, Tintic draws con siderable supply from here in daily wagon leads. Mr. Lars Lawrence and others of this place run a regular car-avan of teams loaded with pigs, chickens, butter, eggs, turkeys, etc., to camp and bring back with them, general distribution, thousands of dol-

lars annually.
Under such conditions it is but sonable to expect that the merchants are doing well. Indeed, there is a tem-porary scarcity of clerks in some of the stores, so great is the trade. The long established Co-op, store, with its many adjuncts—butcher shop, harness shop, shoe shop, grist mill, etc., under the highly capable management of Super-intendent John Jones, is running full tilt on a sound business basis. Other stores, such as the Young Men's, Oran Lewis, Hughes' and Argyle's are having a full share of the trade.

Therefore be it resolved, that the city council of Provo city have a life sized portrait made of him, the said William Strong, and be it further Resolved, that a committee of three Influenced by the rapid growing business of our town, Mr. James Hutchinson has just opened a clothing store with a promise of success and Mr with a promise of success and Mr. Lew Jones has nearly completed a hullding on Main street to be used as Resolved, that when said portrait is completed it be hung in the council chamber of the city council of Provo-

### THE BEET CROP.

A crop from about 400 acres of beets is of excellent quality with a quan-tity equal to a good average, while the price paid this season is above that of previous years.

#### GRAIN AND ALFALFA SEED. It is estimated that 70,000 bushels of

wheat and about 12,500 pounds of lucern seed have been raised this year. The lucerne seed, though, is but one-fourth of a crop; it sells readily at six and one-half cents per pound. The oat, bar-ley and potato crops have been un-usually good, the demand fair, and the prices reasonable.

### EDUCATIONAL.

The first ten weeks of the scho year closed with gratifying results Fri-day last. At the Central, where eigh grades congregate, a vast picnic added much zest to an excellent program worthily rendered. The program conworthly rendered, the brogram con-sisted of singing by Misses Christen-sen, Rowe and Nelson, reading by Misses Mary Nelson, Martha Farnaday and Maud Hicks, recitation by Misses Jemima Anderson, Jennie Jenson, Mary Ann Jenson and Esther Rees, speeches by Misses Jana Argyle, Olivia Stringer by Misses Jane Argyle, Olivia Stringer, Rozetta Hanson and Emma Hicks, and an oratorical contest between Mis Lavern Moore and Miss Martha Holt. The Quaker Medicine company has been doing an immense business here for everal days. Throngs of people filled Dahie's hall every night.

It is sad to relate, that at such gatherings as the last one mentioned, as well as many others, the hoodlum ele-ment is conspicuously in evidence, who with its yells and vicious conduct mar all enjoyment, and is a standing re-proach to those whose duty it is to se-

### CLARKSTON.

A TYPICAL "MORMON" TOWN. Thrift, Prosperity, and the Highest Morality Prevail-Dry Farm Experiments.

Special Correspondence. Clarkston, Cache Co., Nov. 20 .- This thriving little village nestles under the mountains in the northwest part of Cache Valley, Cache County. It was settled about thirty-six years ago by a few families, and on account of the lack of water and timber (and these conditions exist today) had a very hard time for many years. A few men started to farm the dry benches, and although they were laughed at, and made all manner of sport of, they made a grand success of it. All their grain is now raised on dry farms. The old irrigated lands have been turned into alfalfa or hay land,

DRY FARMS.

These dry farms last year produced 239,000 bushels of wheat. This year near 100,000 bushels were harvested. notwithstanding the summer drou and heavy frosts. To give an idea what this people have done in dry farm-ing, it really must be seen to be fully appreciated. Farms range all the way from 89 to 600 acres. The farmers have plowed clear up to the base of the mountains, and every hill and hollow on the benches all around. As a re-sult of their success in dry farming the people are well to do. Of course the miles of wire fencing and the most expensive and improved farm machinery had to be bought, and this kept the people delving to pay off these heavy expenses, but today no ward in Cache valley is more prosperous.

New public and private buildings are being crected and of the modern style of architecture. The old stone school building has been remodeled, and a new brick school house has been built, costing \$2,000. The church has had a new roof, and they are about decorating the inside.

Among the new residences that have sprung up in the past year are those of Messrs. Archibald, Heggie, Sparks, Griffin, and the Barsons, father and son, and the brothers Godfred, each of these have built modern brick homes costing all the way from \$1,500 to \$2,000.

Three public schools are in daily session; a fine Sunday school flourishes and the ward organizations are well attended.

Eighteen families have moved away to seek new homes. Some people want the earth. These have gone to Idaho the earth. These have gone to lamb and Canada to get more room. They have sold their dry farms at the follow-ing figures, Eighty acres, \$1,650; forty at \$850, and another eighty acres for

The Clarkston ward numbers 540 Bishop John Jardine has presided over the ward twenty-three years, and under his fatherly administration prosperity has come to Clarks-ton, and he is beloved by his people. The ward is free from debt; they have paid \$500 to the new Brigham Young college of Logan, and \$125 to the Pio-neer Menument, being the only ward in the Stake that has paid its proportion in full to this fund. The ward has eleven missionaries in the field and five more will leave December 20th.
